

Generated April 18, 2026

1 · Technical Foundation (All Complete)

DONE	Keyword-targeted landing pages live on svivva.com (compare, tools, etc.)
DONE	Comparison Pages Side-by-side competitor comparisons built and indexed
DONE	Blog Content Developer-focused articles published on the site
DONE	AEO — Answer Engine Optimization FAQ/Q&A pages structured for AI search: Perplexity, ChatGPT, Google SGE
DONE	Free Tools Pages Interactive tools that attract organic developer traffic and backlinks
DONE	Hub Pages Topic cluster pages interlinking all content for domain authority
DONE	IndexNow Key Ownership verified at svivva.com/{key}.txt — search engines trust the domain
DONE	IndexNow Submitted All URLs pushed to Bing, Yandex & others — indexed within hours not weeks
DONE	Stripe Connected hello@svivva.com Stripe account wired to Svivva
DONE	Pyracrypt Tiers Created in Stripe Pro \$19/mo · Team \$49/mo · Enterprise \$149/mo — products live in Stripe
TO DO	Wire Pyracrypt Price IDs into App Open Pyracrypt project !' paste Price IDs into agent or Secrets panel
TO DO	Test a Real Checkout Flow Run a test payment end-to-end on both Svivva and Pyracrypt
TO DO	Product Hunt Launch Schedule a launch day — prep hunter, tagline, screenshots, first comment ready
TO DO	Hacker News — Show HN Post "Show HN: I built an AI API builder" — best posted weekday mornings ET
TO DO	Reddit Posts r/webdev, r/SaaS, r/programming — share free tools, not sales pitches
TO DO	Twitter/X Developer Thread Build-in-public thread showing what Svivva does with a demo GIF or video
TO DO	Dev.to / Hashnode Article Technical post that teaches something — naturally links to svivva.com tools
TO DO	Add an email capture on svivva.com — even a simple "Get API tips" form works

Welcome Email Sequence

3-email onboarding flow for new signups explaining core Svivva value

TO DO

Changelog / Updates Page

Show users the product is alive and improving — builds trust and return visits

TO DO
